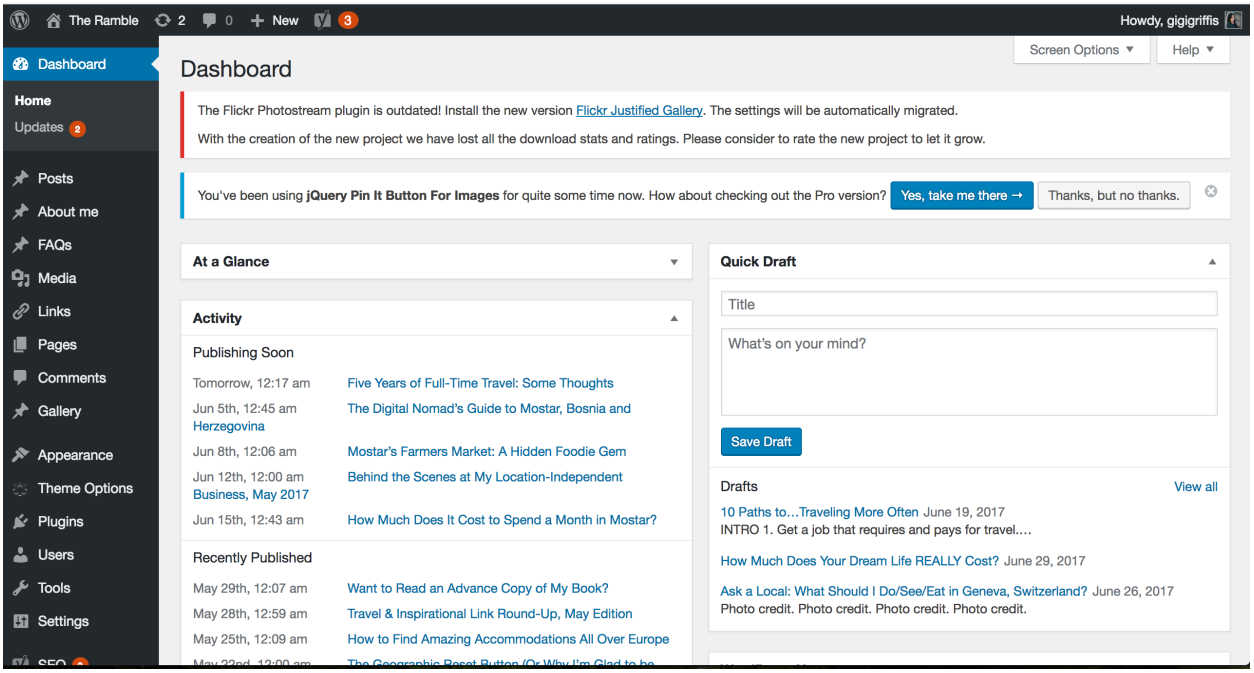
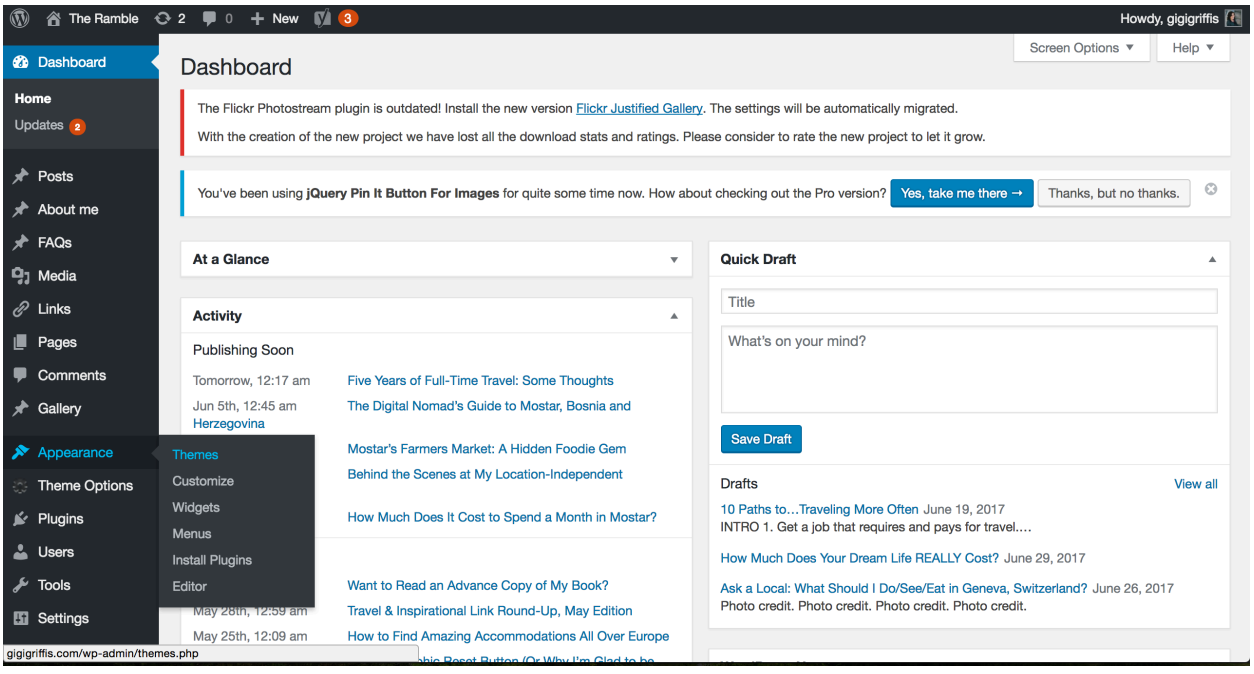
HOW TO INSTALL YOUR THEME

1. Go to yourdomain.com/wp-admin (For example, I go to gigigriffis.com/wp-admin) and log in using the username and password you chose during installation.

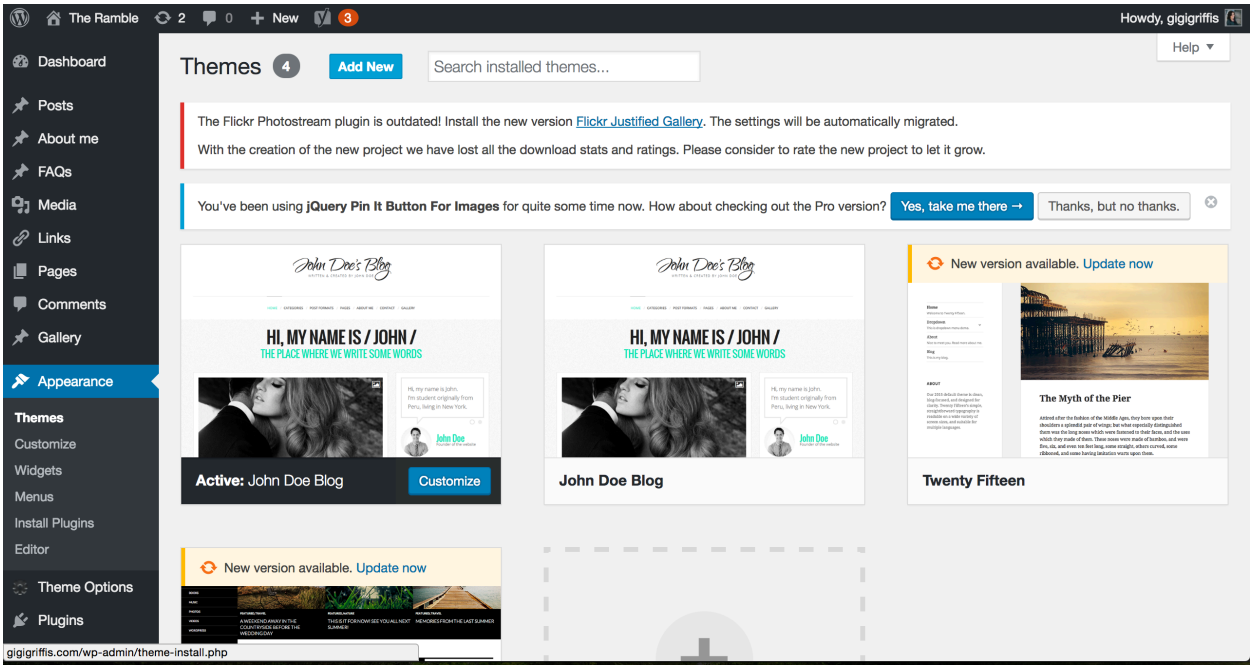
2. When you log in, this is the screen that will come up:



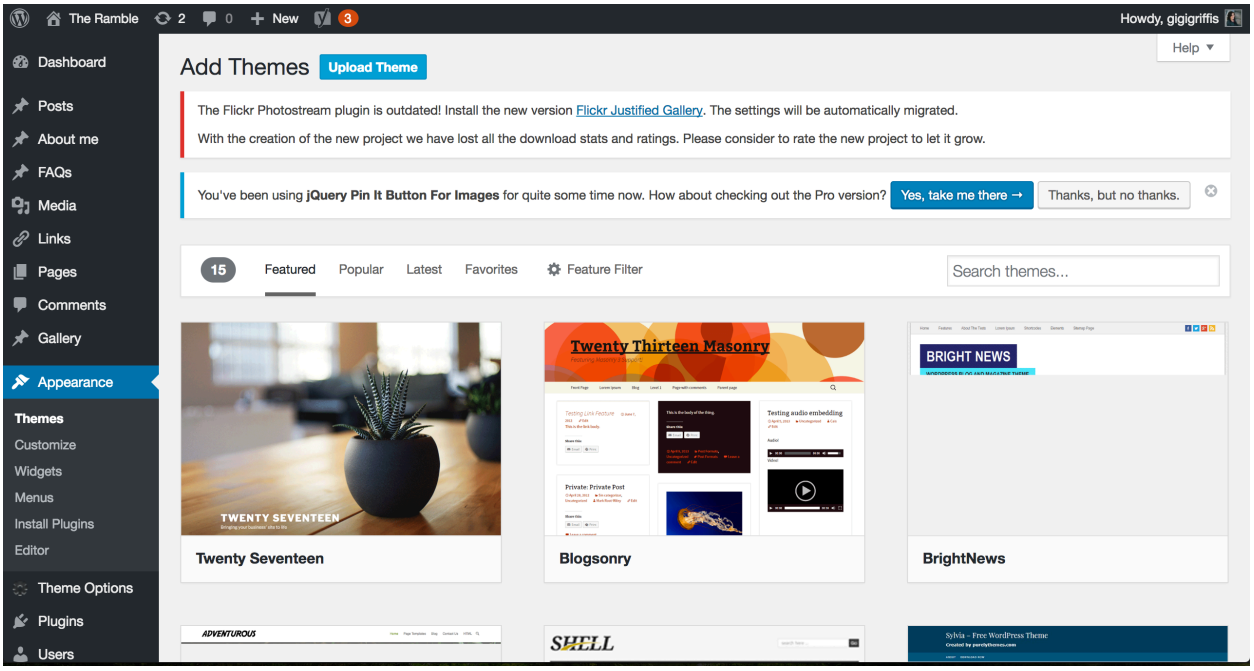
3. On the left of the screen, mouse over Appearance and click on Themes.



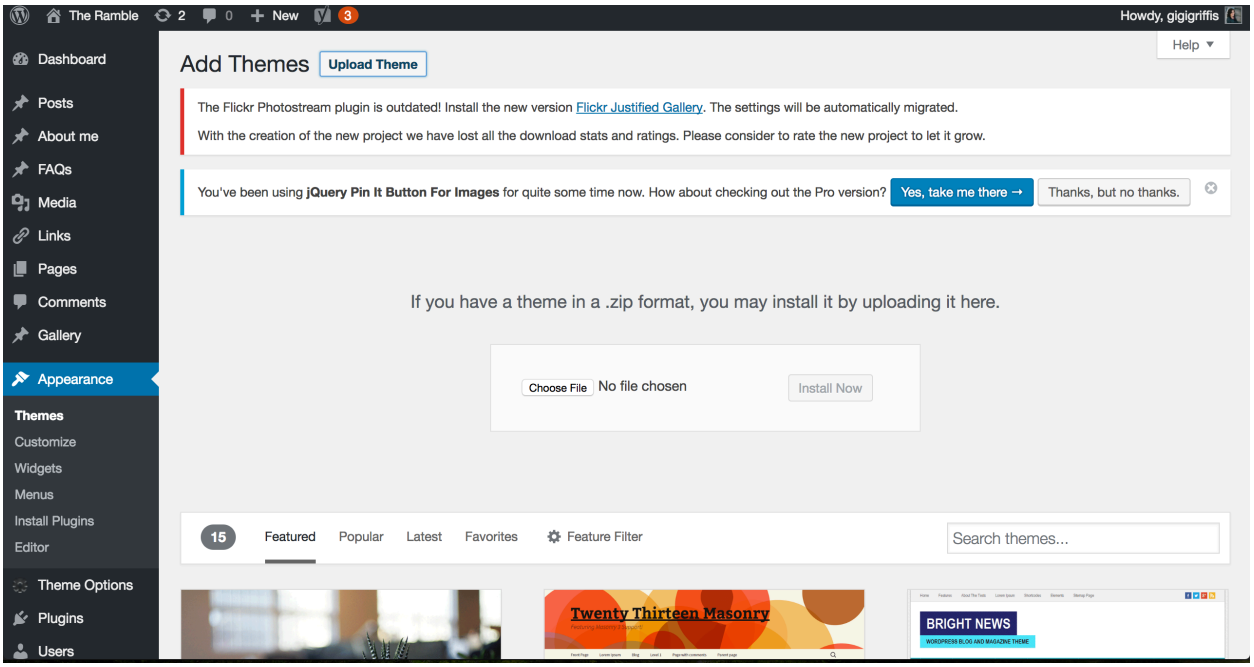
4. At the top of the screen, click Add New.



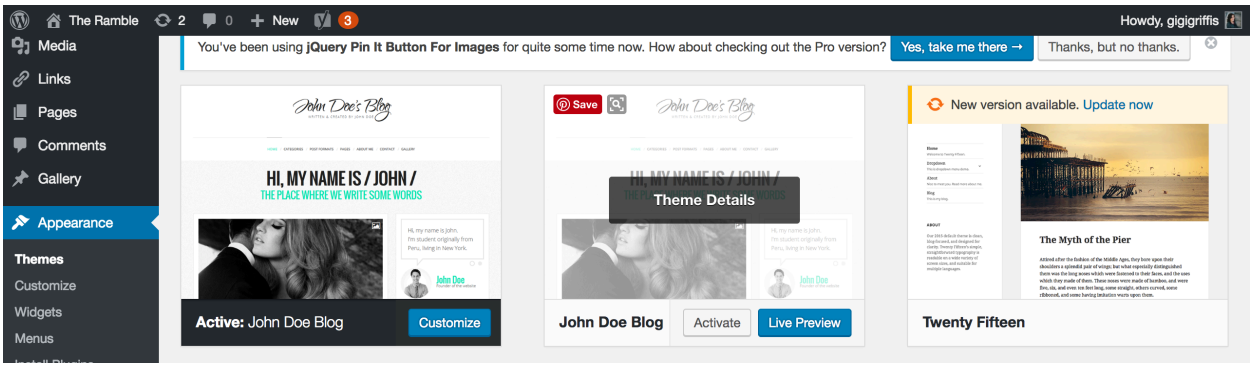
5. At the top of the screen, click Upload Themes.



6. Click Choose File and select the theme you purchased last week.



7. Click Install Now.



8. Once your theme is done uploading, locate it in your list of themes, mouse over the theme image, and click Activate.
